GEODERMA

Contents Volume 78, 1997

Discussion Paper

The role of quantitative approaches in soil science when interacting with stakeholders
J. Bouma 1

Discussion and Author's reply 13

Research Papers

Peat subsidence and its practical implications: a case study in Malaysia
J.H.M. Wösten, A.B. Ismail and A.L.M. van Wijk 25

Podzolization under forest and stump prairie vegetation in northern Michigan
L.R. Barrett 37

Soil phosphorus dynamics during 17 years of continuous cultivation: A method to estimate long-term P availability
J.P. Schmidt, S.W. Buol and E.J. Kamprath 59

Laser diffraction grain-size characteristics of Andisols in perhumid Costa Rica: the aggregate size of allophane
P. Buurman, K. de Boer and Th. Pape 71

The effect of soil compaction and soil physical properties on the mechanical resistance of South African forestry soils
C.W. Smith, M.A. Johnston and S. Lorentz 93

Water movement and soil swelling in a dry, cracked Vertisol
F. Favre, P. Boivin and M.C.S. Wopereis 113

Book Reviews 125

Research Papers

Regionalization of soil water retention curves in a highly variable soilscape, I. Developing a new pedotransfer function
A.C. Scheinost, W. Sinowski and K. Auerswald 129

Regionalization of soil water retention curves in a highly variable soilscape, II. Comparison of regionalization procedures using a pedotransfer function
W. Sinowski, A.C. Scheinost and K. Auerswald 145

Pedotransfer functions for the estimation of moisture retention characteristics of Ferralsols and related soils
M. van den Berg, E. Klamt, L.P. van Reeuwijk and W.G. Sombroek 161

Phospholipid fatty acid profiles and C availability in wet-stable macro-aggregates from conventionally and organically farmed soils
S.O. Petersen, K. Debosz, P. Schjønning, B.T. Christensen and S. Elmholt 181

Estimation of retardation factor of dissolved organic carbon in sandy soils using batch experiments
Z. Li and L.M. Shuman 197

Soil development along an elevational transect in the western Sierra Nevada, California
R.A. Dahlgren, J.L. Boettinger, G.L. Huntington and R.G. Amundson 207

Rare earth element and clay minerals of paddy soils from the central region of the Mekong River, Laos
K. Egashira, K. Fujii, S. Yamasaki and P. Virakornphanich 237

Chemical and spectroscopic characterization of humic acids isolated from different Slovak soil types
G. Barančíková, N. Senesi and G. Brunetti 251
